CHILD Help Foundation Conducts a Free Health Camp

Emergency Medical Support Pg 5

Empowerment of Girls Through Education Pg 11

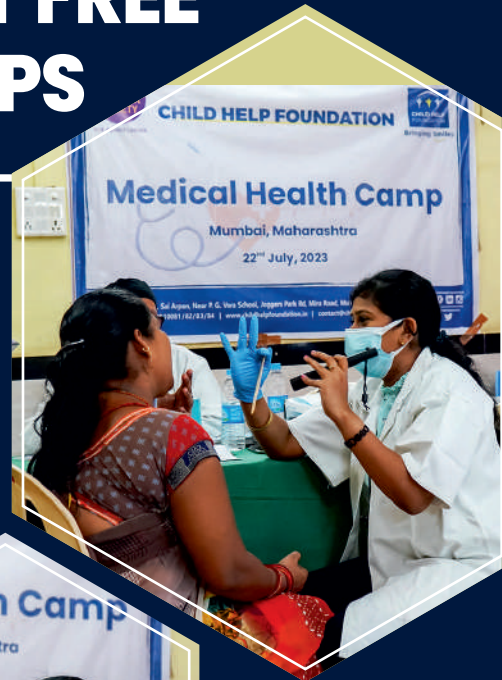

About Us

Child Help Foundation (CHF) is a pan-India non-profit organization, registered under the Bombay Public Trust Act 1950, which started in the year 2010. We aim to accomplish the objectives set by the United Nations Sustainable Development Goals (UN SDGs) for global development. Child Help Foundation's principal purpose is to empower the disadvantaged holistically with some of our initiatives like Emergency Medical Support, Education, Clean Water and Sanitation, Gender Equality, Zero Hunger, Humanitarian Relief, and Village Development.

PEOPLE FLOCK TO GET FREE HEALTH CHECK-UPS

Free Health Camp-Swastha Sab Ke Liye

The Biggest perpetrator for the high rate of deaths is not diseases but poverty. People living below the poverty line often don't have access to quality nutrition or health care, making them more prone to sicknesses and death.

While the government has made great strides when making health care accessible to the poor and underprivileged, many people are still left out when it comes to basic health care. It is of the utmost importance to deliver health care to everyone regardless of their class, religion, race, ethnicity, and gender.

Child Help Foundation understands the severity of the issue and constantly raises funds for medical treatments, along with its crowdfunding partner, Filaantro. Through its Good Health and Well-Being programme, Child Help Foundation has saved the lives of 84,611 people.

On July 22 2023, Child Help Foundation, along with the Indian Cancer Society, organized a free health camp for the residents at Bhayander, Mumbai, Maharashtra. The health camp offered free Routine Health Check-ups, along with Gynaec, VIA & breast examinations by a gynaecologist, Physical examination by a physician and Oral examination by a dental surgeon.

Saroj Gupta, one of the participants who attended the free health camp, expressed her gratitude by saying "This is an exemplary program. Catering to the needs of women. They provided quality health check-ups.". She even requested to conduct more such camps in the future.

Mr Shaji Varghese also voiced his concern about the health crisis in our country by saying "It is a grave concern that many miss out on health care due to financial issues. It pains my heart along with many to see the sad situation that comes with poverty. It is our responsibility as a collective society to help the needy and underprivileged with health resources, however we can. Child Help Foundation will continue its work and provide health care to the farthest corners of India."

Child Help Foundation demonstrated a commitment to improving the health and well-being of children across the country. By supporting and supplementing government health initiatives, they make a significant and positive impact on the lives of countless children, ensuring a healthier and brighter future for the next generation. Child Help Foundation would continue to conduct more such camps in the future and provide health care support to individuals.

Emergency Medical Support

Anas Shaikh
Hemophagocytic
lymphohistiocytosis
(HLH)

I've Already Lost 4 Kids, I Can't Lose Him Too. Please Help My Son Survive!

"I remember how happy my husband and I were when we had Anas. We always dreamed of having a joyful family, filled with smiles and laughter. However, our journey has been filled with sorrow and heartache. Allah has bestowed upon me the gift of four children before Anas, but tragically, all four were taken away from me one after another. Today, I find myself facing a familiar nightmare as my precious baby fights for his life. At his young age, Anas is confined to a hospital bed, battling a deadly condition."

- Mother Of Anas

Anas, who is only 5 months old, was hospitalized last month due to symptoms such as a swollen stomach, hair loss, high fever, and frequent colds and coughs. After conducting tests, the doctors discovered that he is suffering from hemophagocytic lymphohistiocytosis (HLH), an extremely rare and life-threatening syndrome, and only a bone marrow transplant could save his life.

His parents were devastated upon receiving the news. Anas is their only child, and now he is at risk of being taken away from them. But the treatment requires Rs 31,00,000 (Rupees Thirty-One Lakhs Only)/-, which came as a cruel blow to the parents, who can't even afford a proper meal.

The medical expenses have become burdensome. In this dire situation, the family is seeking your assistance. Please donate to save Anas's life, any amount would be helpful.

There are many more children who need urgent treatments, and your small contributions can make a huge difference.

Success Stories

Sulangna Sahu

Since childhood, she had all miseries in life; extreme weakness and difficulty in breathing always hindered her playful life. She was diagnosed with S/P TOF Repair, VSD Patch Intact, no residual stunt. She was suggested for surgery of Redosternotomy +Relief of RVOTO and the cost of the treatment was Rs.3,50,000/- (Rupees Three Lakh Fifty Thousand Only) Sulangna's father couldn't afford the treatment but with the help of your generous donations, Sulangna had a successful treatment and is on the path to lead a joyful life.

Aadvik Ojha

At the time Aadvik was born, the doctors had distressing news for his parents. He was diagnosed with Rectal atresia with acute sepsis and hypospadias and was confined in ICU. He required prolonged neonatal ICU support along with multiple operations, and the cost was Rs 1,25,000 (Rupees One Lakh Twenty-Five Thousand Only). With his father's meagre income and to take care of his family of five only glimmers of hope were your kindness and compassion. With your help, Aadvik is today able to live a cheerful childhood.

Manthan Bagade

Cancer is a deadly disease if not detected early. Manthan at the age of nine was fighting cancer. He was diagnosed with Ewing Sarcoma and required 15 cycles of Cancer therapy and the treatment cost was Rs. 13,00,000/- (Rupees Thirteen Lakhs only). His mother single-handedly raised him after his father passed. They approached Child Help Foundation for help and with the help of the donors, Manthan could complete his treatment. Thank you for showering your love on a little boy.

Success Stories

Nahida Begum

An eight-year-old Nahida hoped that one day she would be able to experience the joys and pleasures of her childhood like her siblings and peers. But Dorsolumbar Kyphoscoliosis had become a huge obstacle to her simple wish. She required Pedicle Screws instrumentation, deformity correction, vertebral column resection and fusion and the total cost of the entire treatment was coming at Rs. 3,80,000/- (Rupees Three lakh eighty thousand only). Her father with no fixed income, had lost all hope. But when donors stepped in to help Nahida, he had a glimmer of hope. Today Nahida is leading the life she dreamed of.

Pasupala Kavya

At the age of five, Kavya was living her life with fear as she was diagnosed with severe heart disease. Since infancy, she had to deal with this heart disease and the only hope to rescue her from this problem was Intercardiac Repair with RV to PA Conduit (Rastelli's Operation). The amount was Rs.6,50,000 lakhs (Rupees Six lakhs Fifty Thousand Only) which was a huge blow to her family. Thus, they approached Child Help Foundation and with the help of donors Kavya had a successful surgery and was able to lead a beautiful life.

Harsh Raj

A bright 14-year-old student had the worst shock of his life when he was diagnosed with Mixed Phenotypic Leukemia (high-risk). The huge shock to him and his family shattered their dreams. He had to undergo post-transplant care, which would cost Rs 3,00,000/- (Rupees Three Lakhs Only). Though his father's relatives and friends helped him, he had run out of sources of funding. Child Help Foundation and the generous donors helped Harsh recover soon. Now, he is on the path of fulfilling his dreams.

Success Stories

Huzefa Khan

Life was extremely miserable for 11-year-old Huzefa. He was diagnosed with Thalassemia Major and had to undergo a blood transfusion every 15 days. The only solution to his woes lay in a bone marrow transplant worth Rs 10,50,000/- (Rupees Ten Lakh Fifty Thousand Only). Huzefa's father couldn't afford the treatment. So, he approached Child Help Foundation for monetary assistance. The donors then built a bridge out of love and kindness that helped Huzefa reach his bone marrow transplant.

Pankaj Pandey

Pankaj Pandey was only four months old when he had to be taken to the hospital for his heart condition. Only surgery could save the life of this little munchkin. However, with the treatment costing an enormous Rs.2,50,000/- (Rupees Two Lakh Fifty Thousand Only), hopes of survival seemed slim at best. But when all hope seemed lost, donors stepped in and saved the day for Pankaj.

Maibish Shah

Fever and Chest Pain plagued the days of the ten-year-old Maibish Shah. Who once was a bright and studious girl, became a shadow of her former self. The cost of her fulfilling life was Rs.4,02,000/- (Rupees Four Lakh Two Thousand Only), which was impossible for the family who depended on a farmer for daily sustenance. But the donors made the impossible possible, and today Maibish Shah has returned to her studious nature.

Karthik Jagdish

Rs. 4,00,000/- (Rupees Four Lakh Only) was the cost to save the life of Karthik Jagdish, and this was only made possible by the donors of Child Help Foundation. Karthik Jagdish was diagnosed with a heart condition, and only treatment could save him. His parents were mere labourers who struggled to put food on the table. So they decided to approach Child Help Foundation, and the rest is history.

Success Stories

Bo Padmaja

The dreams and hopes of Padmaja and Patil came crashing down when their baby girl was born prematurely. Doctors said that the treatment would cost a hefty Rs. 10,00,000/- (Rupees Ten Lakhs Only), which came as a huge blow to the parents. They were drowning in debt and had no way to save their precious baby. Patil and Padmaja then approached Child Help Foundation, whose donors raised the funds for the baby's treatment.

Arelli Akanksha

Complex Heart Disease threatened the life and dreams of 14-year-old Arelli Akanksha. She wanted to make her family proud with her excellent studious nature. But fate had other plans for her. According to the doctors, her treatment would cost Rs 5,75,000 (Rupees Five Lakhs Seventy-Five Thousand Only), which dimmed the hopes of her parents. However, the donors of Child Help Foundation saved her through their generous donations and shares.

Ashok

A Scarred Kidney made the life of Ashok a living nightmare. The only way to save him was through an expensive kidney transplant worth Rs. 10,00,000/- (Rupees Ten Lakhs Only). Ashok's parents borrowed heavily from friends and family members, but it wasn't enough. In the nick of time, the donors came in like a beacon of hope and saved the life of the seventeen-year-old. Today, Ashok is back in his home, and looking forward to the future.

Empowerment of Girls Through Education

“When girls are educated, their countries become stronger and more prosperous.” - Michelle Obama

A girl's education entails more than just having her attend school. Equal opportunity should be provided for girls to finish their education. When attending school, they should feel secure, to compete in the job market, they need to acquire the necessary knowledge and abilities. They should be allowed to develop the life skills required to survive and adjust to a rapidly changing world. Girls and women should have the freedom to choose their paths in life and to participate in their communities.

Gender inequalities in education still exist despite research indicating how important girls' education is to development. According to **UNICEF**, around the world, 129 million girls are out of school, including 32 million of primary school age, 30 million of lower-secondary school age, and 67 million of upper-secondary school age. In countries affected by conflict, girls are more than twice as likely to be out of school than girls in non-affected countries. Only 49 per cent of countries have achieved gender parity in primary education. At the secondary level, the gap widens: 42 per cent of countries have achieved gender parity in lower secondary education, and 24 per cent in upper secondary education. There are several reasons for barriers to girls' education like poverty, child marriage and gender-based violence that may differ from country to country. Even financially unstable families favour boys for educating them. There are many places where schools don't meet girls' safety, hygiene or sanitation needs. In others, gender disparities in learning and skill

development are a result of teaching methods that are not gender-responsive.

It's for each country to take up into consideration educating girls from every part of the state. Firstly, it is necessary to break gender barriers, many girls drop out of school due to various reasons. By addressing these barriers, we can create an inclusive environment that includes providing scholarships, school infrastructure improvement, and awareness campaigns.

Empowering girls through education requires the involvement of families, communities and policymakers. Community engagement programs that involve all these people can create a supportive ecosystem that values girls' education and encourages them to attend school. Also promoting gender equality, we empower girls to challenge stereotypes and societal norms, even enhancing life skills not only empower girls to succeed in academics but prepare them for future careers and leadership roles.

Empowering girls through education is a vital step towards creating a more equitable society. By addressing those barriers, we unlock the potential of girls paving the way for success.

Child Help Foundation has always strived for educating girls from underprivileged sections of society. The organization has actively conducted awareness campaigns and created a good school infrastructure for these children. To date, through the program of Quality Education, **4,82,051** children have benefited from better education and many have passed with flying colours and currently pursuing higher education.

SDG3: GOOD HEALTH AND WELLBEING

• Meeting with volunteers of School Health Management Project and preparation of school health screening camp inauguration – 11th July 2023

The meeting was conducted at the Vikramgad office involving the project team of SHM (School Health Management). Medicines were also dispatched to all ten schools on the same day. Apart from that, plans were made for the inauguration of health check-up camps, displaying of IEC material and creation of a health corner.

• Inauguration of School Health Management Project – 12th July 2023

The inauguration of school health camps took place at Kawale and Karhe Ashram schools in Maharashtra. In both schools, the project manager and doctors took orientation sessions to communicate with school staff and students about the project. The principal also praised Child Help Foundation for taking up the health issue of the students which is very necessary for them. Apart from health screening, the project team conducted other activities such as one-to-one and group counselling sessions on the same day.

Monthly Highlights

SDG3: GOOD HEALTH AND WELLBEING

• **Monitoring visit at Chabke-Talwali Ashram School – 21st July 2023**

As part of the monitoring and evaluation of the project, a visit was paid to the Chabke-Talwali Ashram School in Maharashtra where the school health camp was going on. The visit helped to understand how doctors screen the students, and how awareness sessions are conducted and also took feedback from the school authorities. Despite facing the problems on ground level such as the remote location of schools and inaccessibility, weather conditions and challenges to transport the material, the project implementation is going smoothly.

• **Training to the Data Entry Operator- 22nd July 2023**

The data entry operators from the SHM project called HO attended the training on HIS (Health Information System). The Skypath team oriented them about the software and sensitized them on how to do the data entry of health cards filled by doctors. The data entry operators shared the queries that they faced while entering the data into the computer.

• **Monitoring visit at Karhe Ashram School – 26th July 2023**

As part of the monitoring and evaluation of the project, a visit was paid to the Karhe Ashram School in Maharashtra where the school health camp was conducted. The visit helped to understand how doctors screen the students, how awareness sessions are conducted and also the feedback from the school authorities. Despite facing the problems on ground level such as the remote location of schools and inaccessibility, weather conditions and challenges to transport the material, the project implementation is going smoothly.

Monthly Highlights

SDG3: GOOD HEALTH AND WELLBEING

• Baby Sack Distribution

The baby sack distribution, titled 'Sleeping Sack Kiddie Comforts', is a comfortable sleeping sack for children of 12 months to 24 months, where the material is made of comfortable as well as baby-friendly in terms of dryness and cleanliness. These baby sacks are to be distributed among the less privileged masses to help their children during the various seasons keeping them comfortable and warm. The baby sacks have been distributed in Government Hospital- Hyderabad, Telangana, Bangar Village- Palghar, Maharashtra, Urban Health Centre - Mumbai, Maharashtra and Kadirenahalli in Bengaluru.

Monthly Highlights

SDG3: GOOD HEALTH AND WELLBEING

• Medical Camp

Child Help Foundation and a Team from the Indian Cancer Society organized a Medical Camp in Ganesh Deval Nagar Community in Bhayandar (West), Maharashtra. The Objective of the event was to create awareness among men and women of the various diseases occurring and how they should care for their health. Routine Checkup tests along with the following three tests were been conducted.

1. Gynaec VIA & breast examination by a gynaecologist.
2. Physical examination by a physician.
3. Oral examination by a dental surgeon.

• Orientation about Child Help Foundation programmes and projects to doctors

On 15th July, Ms Jyoti Kamble along with a project team member visited the Baby Feeding Centre (BFC) at Urban Health Centre in Bandra, Maharashtra. During their visit, they met with the nurse in charge and the other OPD nurses. They also checked the book where they register the names of the beneficiaries. They learned that women coming to the hospital were actively using the BFC for feeding their babies and the BFC was well maintained.

Other BFCs are also functional, which are- CAMA Hospital, St Georges Hospital and Sir JJ Hospital. The utilization is good and looked after well by the hospital staff.

• Nutrition Kit Distribution

On 31st July, Ms Pranisha, a Project team member, visited Mulund, Maharashtra to conduct a nutrition kit distribution. This activity was done in part of the PMTBMB (Pradhan Mantri TB Mukht Bharat)Yojna. Child Help Foundation staff have actively distributed nutrition kits to 40 TB-affected pediatric patients in Mulund for the past six months, in collaboration with the Brihanmumbai Municipal Cooperation. These nutrition kits consist of rice, wheat flour, groundnuts etc.

Monthly Highlights

SDG3: GOOD HEALTH AND WELLBEING

• Distribution of Ropes, Travel Bags and Clothes to Women and Children

On 3rd July 2023, the volunteers in Bengaluru, Karnataka distributed ropes, travel bags, skipping ropes and clothes to the Women and Children Development Centre in Karnataka. This contribution reached many children in need. These supplies can help children both in education as well as recreation.

• Visit to the police station for proposed activity

On 4th July 2023, as a part of the Child-Friendly Police Station project, a meeting was conducted with PSI Archana Jadhav and Sr PI Sandip Kadam. The suggestion was taken from them regarding the branding on the material supported by Child Help Foundation and painting on the wall.

• The Joy of Giving

On 17th July 2023, Child Help Foundation organized an event with the objective of providing donated clothes, courtesy of SBI Securities, to underprivileged children and women. Spearheaded by Ms Sendra D'souza and her dedicated team, the distribution took place in Nallasopara, Maharashtra. The heartfelt reactions of the children upon receiving the clothes were heartwarming, reflecting the true joy of giving. This initiative underscores Child Help Foundation's commitment to not only assist those in need but also to ensure the donated items meet the standards we desire for ourselves. Through such endeavours, Child Help Foundation exemplifies its dedication to fostering a strong sense of community and enhancing the overall quality of life for the underprivileged.

Monthly Highlights

SDG4: QUALITY EDUCATION

• Education support

On 6th July 2023, Mr Shekhar who is Ace Wheelchair Tennis Star, approached Child Help Foundation for the support for the fees of his three children studying in the Devanga Sangha School in Bengaluru, Karnataka. The children are very bright and therefore Child Help Foundation decided to provide support. Thus the school principal of Devanga Sangha School handed over the three cheques. Through giving educational support the children have a chance to continue their education as all children have a right to education as a fundamental right. The principal of the school appreciated the support extended by Child Help Foundation.

• Educational kit to Nandini

On 7th July 2023, a Project team member visited the home of Ms. Nandini Ankush Khadke student of Murbad Ashram School in Maharashtra. The purpose of the visit is to donate educational kits and essentials to her. The donation included stationery items and essential things such as soap, toothpaste, washing powder, soaps, combs and an umbrella. Nandini and her parents were very thankful to Child Help Foundation for their kind support

• Monitoring visit to Murbad Ashram School

On 7th July 2023, Ms Shilpa Lokhande, a Project team member, made a surprise visit to Murbad Ashram School in Maharashtra for supervision. She was there to monitor the work of the teachers, appointed by Child Help Foundation under the MOF project. As per the observation of the visit teacher, Mr. Devram Sathe was there in the school as per the location. Also in the presence of the project team member, Mr. Devram Sathe taught 10th-standard students. He teaches maths and also motivates students to solve maths exercises.

Monthly Highlights

SDG4: QUALITY EDUCATION

• Monitoring Visit to Sakhare Ashram School

On 12th July, Ms Jyoti, a Project team member, visited Sakhare Ashram School in Maharashtra, to monitor the MSC work. The MSC coordinator Mr. Jagannath taught a lesson in Chemistry subject. Children learnt about the PH scale through the experiments conducted to check if the solution is basic or acidic from the use of Litmus paper. Then students also tried the same experiment. The experiments were fun and fruitful for the students.

• Visit to Talwade school regarding new MSC

On 13th July, Ms Jyoti, a Project team member along with Mr Raju Gangoda, visited the school at Talwade. The objective was to see the room to set up a new MSC in the school. The team met the science teacher. He was very cooperative and showed the science lab. The room was very big and good for setting up MSC but there was a leakage in the roof and therefore it needs to be repaired.

Monthly Highlights

SDG4: QUALITY EDUCATION

• Science Activity "Wind Mill Project" conducted at Murbad School

On 25th July 2023, Ms Jyoti Kamble, a project team member, led an engaging windmill project for 9th-grade students at Murbad Ashram School in Maharashtra. The project day started with Ms. Jyoti Kamble's insightful introduction and Ms. Ria Noronha took the stage to further enlighten the students about the importance of windmills. Ms Noronha highlighted the environmental benefits of wind energy, emphasizing its role in reducing air pollution and promoting energy independence. For the practical aspect of the project, the students were divided into groups, with each group consisting of five members. Ms Namrata Sathe, an enthusiastic instructor, guided the students through an activity on how to make their very own windmills. The students eagerly absorbed the information and put their creativity to work, assembling their windmills with enthusiasm and determination. As the project unfolded, the students' performances exceeded expectations, and their windmills turned out to be marvellous works of art.

Through their best performances and active participation, the students not only learned about the importance of windmills but also embraced the importance of sustainability, leaving the event with a determination to make a positive difference in the world.

The students were able to develop a concept of the subject in their minds and bring that same concept to reality in the form of project work. They learned to work in groups. Their creativity is revealed.

Monthly Highlights

SDG4: QUALITY EDUCATION

• Child Care Institute-CCI (Number of Students-252)

Child Help Foundation conducted numerous activities with the children at Child Care Institutes throughout India

- ♦ Counselling, Birthday Celebration and Distribution of school requirements was held at Needs Charitable Trust in Bengaluru, Karnataka.
- ♦ Health Camp and Dance Competition were held at Ashraya (Handicapped Welfare Organisation) in Bhubaneswar, Odisha.
- ♦ Counselling and Session on Health and Hygiene were held at Khirod Basini Kanya Ashram in Katada, Odisha.
- ♦ Song and Debate Competition was held at Koel Saraswati in Katada, Odisha.
- ♦ Birthday Celebration was held at Charis Foundation in Thirumullaivoyal, Tamil Nadu
- ♦ Tree Plantation, Yoga and Physical Exercise and Finger Painting Activities were conducted at Special School of Joy in Kadma, Jharkhand
- ♦ Yoga Classes, Sports Activity and Dental check-ups were conducted at Saraswati Anath Shikshan Ashram in Pune, Maharashtra.

Monthly Highlights

SDG4: QUALITY EDUCATION

• Education Support Given to Schools in Nashik

On 26th July 2023, Shilpa Lokhande, a project team member visited Bhojapur Khore High School and Krantiveer V. N. Naik Shikshan Prasarak Sanstha in Nashik, Maharashtra. The Purpose of this visit was to donate projectors and screens to both schools as they requested it from Child Help Foundation for the implementation of digital education. Both the schools were very thankful to Child Help Foundation for their kind support.

• Supportive Classes for Village Students

Volunteers are providing supportive classes to the students of the village Gulabi Gaon, Maharashtra. Volunteers are taking tuition of village children regularly. Project beneficiaries are selling their products and services from the allotted shops in the bazaar haat.

Monthly Highlights

SDG4: QUALITY EDUCATION

• Aashayein Event

On 23rd July 2023, Ms Pranisha Lopes and her team from Child Help Foundation participated in the esteemed Aashayein event at Jamnabi Narsee Monjee School in Mumbai, Maharashtra, showcasing the incredible talent and determination of 19 enthusiastic school students. The event included a variety of competitions, ranging from sports like Relay and Tug of War to creative pursuits such as poem recitation, painting, singing, and more. Child Help Foundation's students proved their mettle and earned recognition, securing the 2nd Prize in Clay modelling and the 3rd Prize in Poem Recitation, highlighting their artistic and literary skills. One outstanding student also received a scholarship for training at the prestigious D'art Fusion, providing an excellent opportunity for further artistic growth. The participants were praised for their dedication and received Participation Certificates and thoughtful return gifts. Additionally, they were treated to a delectable breakfast and lunch, ensuring a delightful experience for all. The staff of Child Help Foundation wishes well to all those who won and the one who was able to get the scholarship.

Monthly Highlights

SDG2: ZERO HUNGER

• Roti Ghar: Mumbai, Thane, Delhi, Bangalore, Odisha, and Hyderabad

Child Help Foundation in collaboration with Roti Ghar provided cooked food to 1800 children in Mumbai, Thane, Delhi, Bengaluru, Chilika and Hyderabad. Child Help Foundation's main aim is to provide food to needy children and make their future bright and better by providing nourishing meals and caring for their health.

• Simhachalam Giri Pradakshina

On 2nd and 3rd July, devotees in Andhra Pradesh, India observed Simhachalam Giri Pradakshina a famous pilgrimage and religious practice. Child Help Foundation actively participated in offering the needs of the devotees. The team of Child Help Foundation distributed medical kits and food to more than 10,000 devotees.

SDG8&10: VILLAGE DEVELOPMENT PROJECT

• Meeting at MBMC

On 21st July 2023, Ms Shilpa, a project team member attended the meeting at MBMC head office.

• School Development Project

On 4th July 2023, under the 'School Development Project' an inauguration was done by Dr Poonam Sharma (Independent Chairperson of NFL). Toilets and a water purifier were installed and the Mini Science Centre was set up. The repairing work was done and the project was fully completed in two government schools: M S Maur and M S Koyaribigha Schools in Bihar.

Monthly Highlights

SDG 5: Gender Equality

• Training on POSH

Sessions on POSH were conducted by Meena Lokhande-Lee, Head- Resource Mobilization, in multiple organizations. The provisions of POSH were elaborated on in the session. Formation of the committee, Cases of POSH, Gender Equality and Responsibilities of the Head were discussed. The training was conducted in the following locations:

- ♦ ITC Grant, Mumbai
- ♦ Hotel Taj Lands End, Mumbai
- ♦ Hotel Taj Palace, Mumbai
- ♦ Kettoy, Mumbai
- ♦ D S Shenkar, Mumbai
- ♦ Hotel Taj Lands End, Mumbai
- ♦ Child Help Foundation, Mumbai
- ♦ Hotel Taj Palace, Mumbai

• TOT (training of trainers) for the team members of the SHM project at Vikramgad

On July 29, 2023, The TOT was organized on the topic of Gender and Gender-Based Violence. The training was attended by 11 project team members from the SHM project. Trainer- Annarao Waghmare from our Invisible Girl Project conducted the training. He explained the subject by using various training tools such as flip charts, storytelling, sharing of experiences and feedback from participants.

Monthly Highlights

SDG 5: Gender Equality

• IGP sessions in Schools (Maharashtra)

On 5th July 2023, Invisible Girl Project sessions were held in Schools such as P.G. Vora School in Mira Road, Jamndas Adukia Balika Vidyalaya in Kandiwali, Kawale Ashram School, Holy Star English School in Malad. These sessions were conducted by reporting staff Mr. Annarao Waghmare, where the students in the school learnt about female gendercide, and its existing implications on society as well as taught girls about the importance of girls in society. This session not only highlighted the importance of this issue but also taught boys how to respect women.

They also took the pledge to end female gendercide, to be the new wave of change needed for female empowerment to be at par with their male counterparts.

On 7th July, Mr Annarao Waghmare gave the students of Maan Ashram School a session on Female gendercide.

• Internal Committee Workshop for ITC Grant, Parel

Ms Meena Lokhande, (POSH) trainer along with Chris Shenoy conducted a workshop for the IC Members at the ITC Grant Hotel. There were three representatives from the industry. The participants were keen to participate in the session as well and they were actively contributing to the workshop. There were case study discussions, and IC roles, and responsibilities were shared through a PowerPoint presentation

Monthly Highlights

SDG 6: WAS (Water & Sanitation)

• Donated Water Purifier to Chaukul English School.

On 27th July 2023, Child Help Foundation donated a water purifier to Chaukul English School in Sindudurgh, Maharashtra. The water purifier reached the school. It will benefit 200 students of Chaukul English School.

• World Paper Bag Day

On July 11th, 2023, Child Help Foundation (Child Help Foundation) conducted a program at the Child Care Institution Support in Mumbai, Maharashtra, aimed at promoting awareness of sustainability and reusability. The event focused on highlighting the importance of paper bags and their biodegradable properties. Ms Pranisha Lopez led a session demonstrating the creation of paper bags while underscoring their benefits and explaining the detrimental effects of plastic bags on the environment. The program effectively educated the children about eco-friendly practices and the significance of making environmentally conscious choices.

Monthly Highlights

SDG 11,13 & 17: Humanitarian Relief

• Yavatmal Calamity Relief

On 27th July 2023, Child Help Foundation in association with Disaster Management and Research Foundation took an initiative for calamity-affected people of Yavatmal, Maharashtra. Clothes were donated to the affected people.

SDG 15: Life on Land

• Tree Plantation

On 8th July 2023, a tree plantation drive was conducted along with Shri Swapnil Ravindra Patil, IAS officer and Additional Deputy Commissioner, Mr Rewari. This drive was a part of a campaign in the village of Budhpur, Delhi with the partnership and cooperation of the Rural Development Agency. The village sarpanch, Monika Yadav, the village residents as well as the NCC school of and children of scout were present and helped in taking the first step forward in this campaign for the maintenance and nutriment of the village. This initiative was a step towards maintaining a rural environment.
