

CHILD HELP FOUNDATION

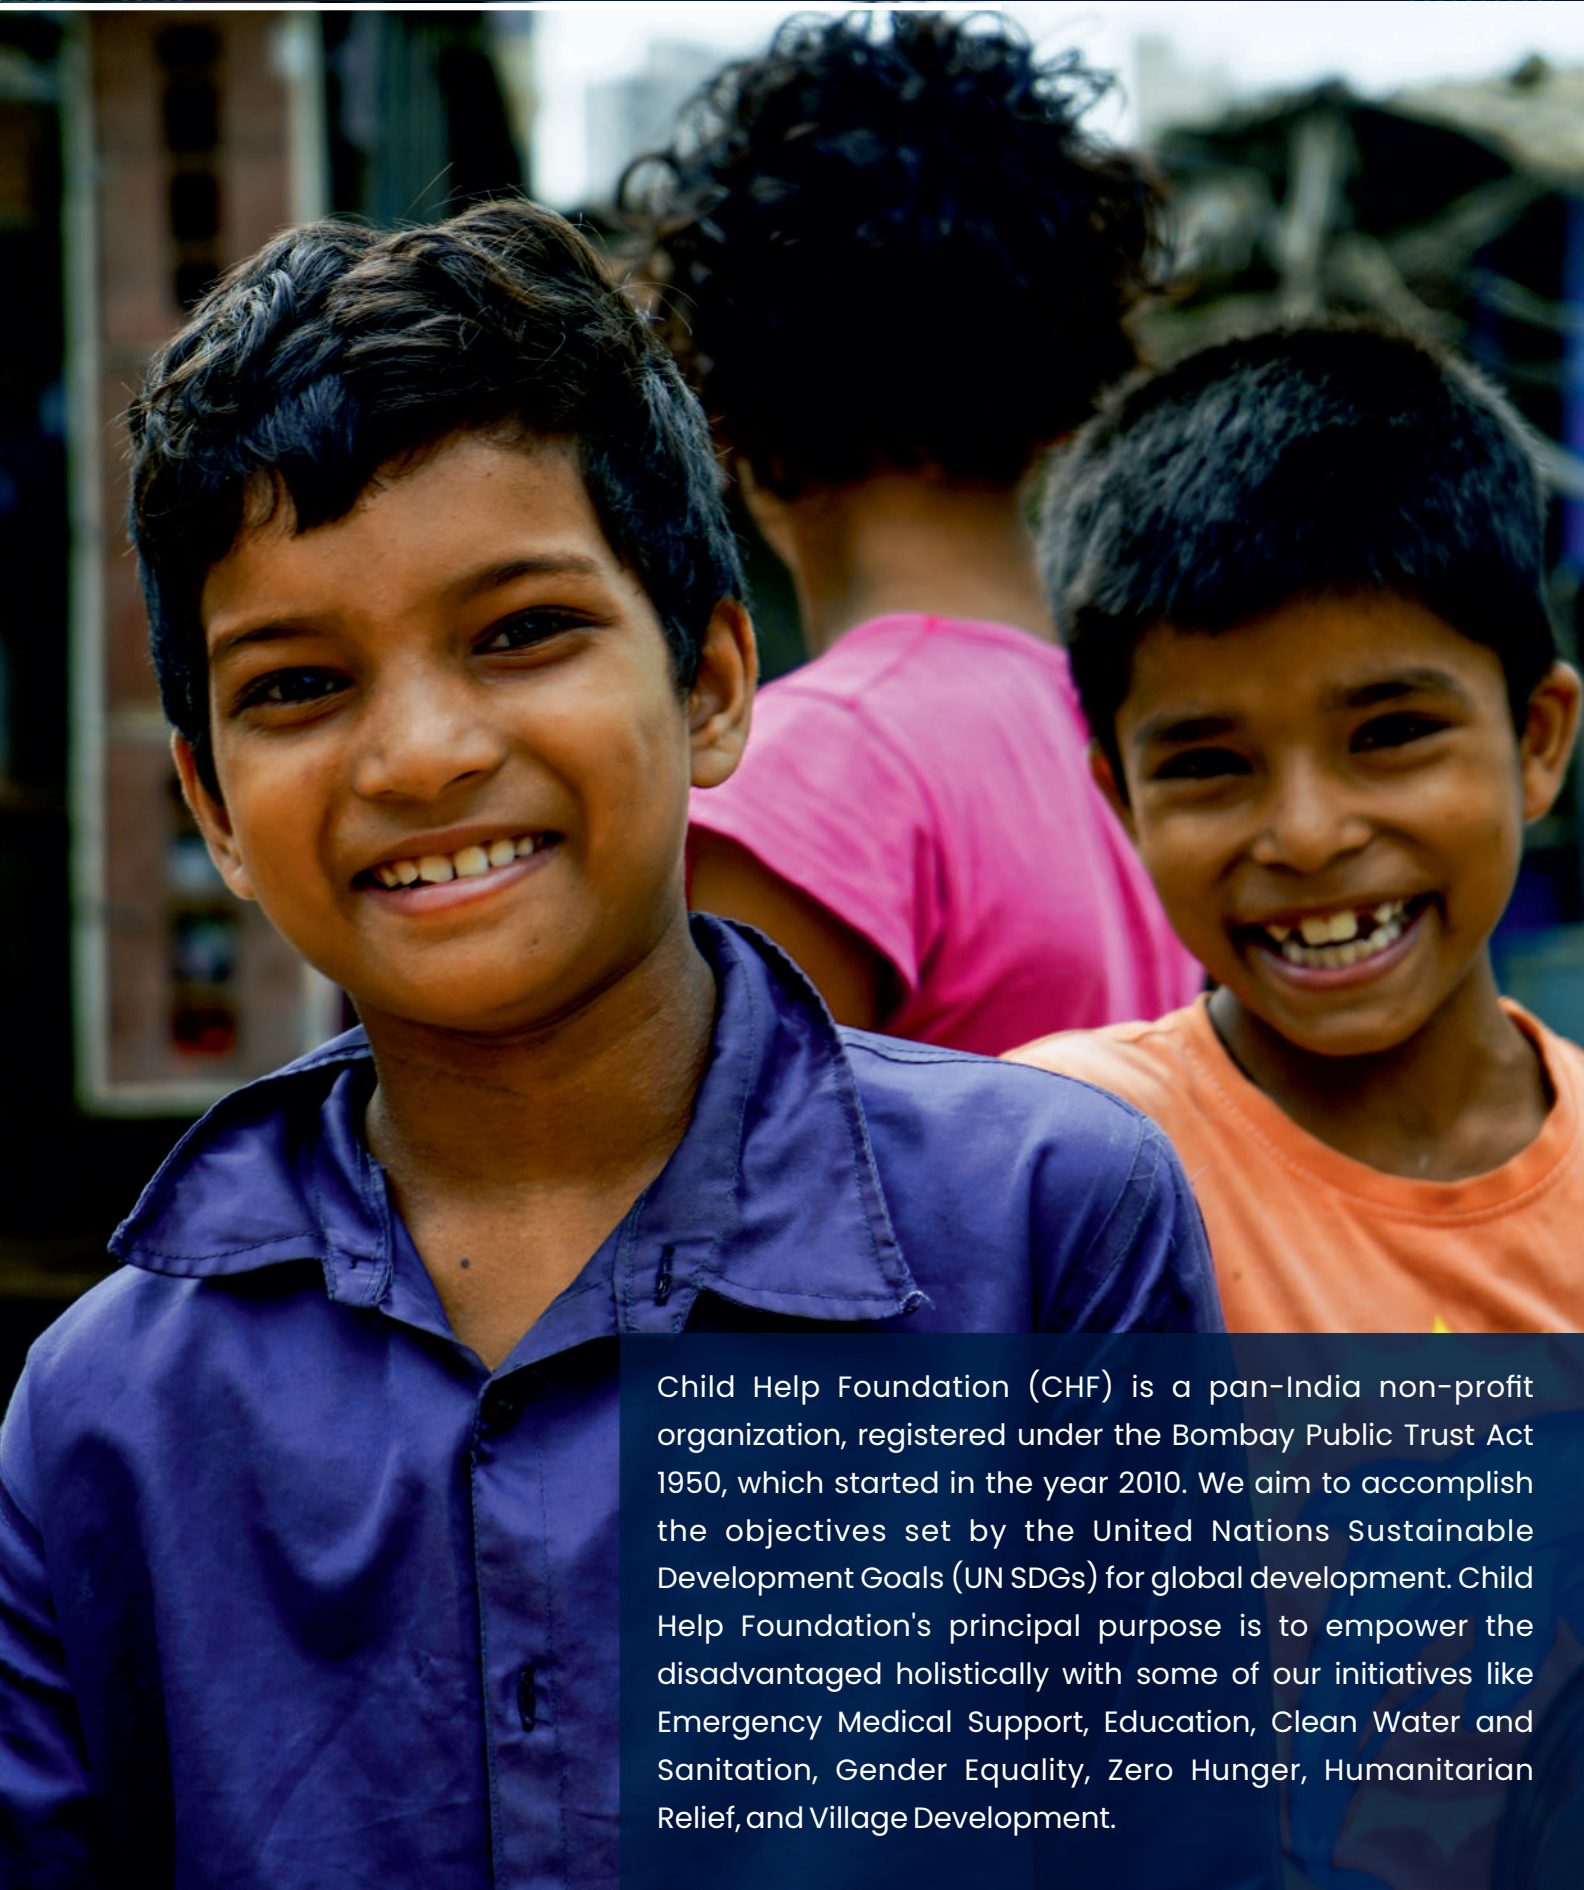

September'22 Journal

Say No To Plastic

About Us

Child Help Foundation (CHF) is a pan-India non-profit organization, registered under the Bombay Public Trust Act 1950, which started in the year 2010. We aim to accomplish the objectives set by the United Nations Sustainable Development Goals (UN SDGs) for global development. Child Help Foundation's principal purpose is to empower the disadvantaged holistically with some of our initiatives like Emergency Medical Support, Education, Clean Water and Sanitation, Gender Equality, Zero Hunger, Humanitarian Relief, and Village Development.

Say No to Plastic Campaign Drive

Swastha Se Shiksha Tak

"My son Jeevan was diagnosed with Brain Cancer. It was the most devastating news for us as parents. We are grateful to Child Help Foundation who supported our baby's treatment by providing us with the money required for his chemotherapy sessions. The team helped us through every step and made sure that our child got the education he deserved. They helped us pay Jeevan's school fees. Today, our son is on the path to good health and goes to school every day. Thank you Child Help Foundation!"
-Mrs. Sushma ; (the Mother of 5- year-old Cancer Survivor Jeevan Raja Shekhar)

Child Help Foundation helps children in need who suffer from terminal illnesses get emergency medical support by providing financial assistance. Under our initiative 'Swastha Se Shiksha Tak', Child Help Foundation provides educational support to children from financially underprivileged backgrounds. This program helps children who are terminally ill and have been provided assistance under the Child Help Foundation's flagship 'Emergency Medical Support' program, smoothly transition back into their education. The initiative is making education dreams come true for the children in need.

Education is one of the most important fundamental rights of a human being. Children's right to education should not be overlooked because of financial disabilities. Child Help Foundation helps such children in need by providing practical solutions to their dire problems.

We emphasize the importance of education and appeal to the generous and giving nature of the community. Donating and raising funds for the educational support for the children is investing in the country's better future by enhancing their lives.

"I was going through a really tough time and had to drop out of school. I am HIV positive and people treated me differently and no amount of awareness was helping me. I did not have the financial means, and Child Help Foundation helped me in desperate times. I could continue her 10th standard education because of Child Help Foundation. I will forever be grateful to Child Help Foundation"
- Sakshi Pujari ; Beneficiary

"Thank you Child Help Foundation for making this possible for me and my family. Doing our little bit to help these children has been very touching and has made my family extremely happy. I appreciate everything the organization does, and I hope to be involved with further such great initiatives by Child Help Foundation".
- Mr. Sudeep John, Donor ; (His donation has helped 46 Children)

There are many more Children like Jeevan And Sakshi who need your help, to fulfill their education dreams. Your one little step can help bring smiles into the lives of these Children!

You can support us by spreading the word and following us on social media.

Emergency Medical Support

Varshith
**Bone Marrow
Transplant**

5 Year Old Varshith Needs To Go Through His Second Surgery To Survive. Please Help Him!

After a successful Bone Marrow Transplant, Mr. and Mrs. Reddy felt that their kids' life would return to normal and they would be able to live happily, but their dreams shattered again when little Varshith complained to them of severe fever. Worried, they admitted him to Sri Ramachandra Medical Centre, Chennai where after a few check-ups, he was diagnosed with Aplastic Anemia. The parents were devastated when the doctors informed them about the

severity of this disease. For them, their little boy had gone through enough, which made this situation unbearable.

Varshith needs chemotherapy and Hematopoietic Stem Cell Transplantation (HSCT) as a part of his treatment which is estimated up to 30,00,000/- (Rupees Thirty Lakhs Only). The family sold everything they owned to afford Varshith's previous treatment. Now they have left with nothing to arrange this huge sum of money. The Reddy family is in dire need of your support. Please help them save their loving son.

"My boy is just five years old, and he is awaiting his second operation. I'll be the donor to save my little boy. We did everything we could; we sold our property, we had to put our second boy in the hospital to save our first boy. Me and my wife wonder what we've done that our child is going through this? I earn around Rs. 300/- (Rupees Three Hundred) a day, and she is a housewife. How are we going to arrange Rs. 30,00,000/-. We're just clueless. We desperately need help. Please Help Us!" Mr. Krishna Reddy (Father)

There are many more children who need urgent treatments, and your small contributions can make a huge difference. Donate!

Success Stories

Crespo Robert

Crespo Robert, a 13 year-old boy from Kerala, suffered from Spinal Deformity and eye disability since birth. The family had to sell their house for his eye treatment, after which his spine problems got worse. They went to Medical Trust Hospital, Kerala, for the overall treatment, which amounted to Rs. 7,00,000/- (Rupees Seven Lakhs Only). Since the family earned a meager amount, they couldn't afford such costly surgery. Therefore, they approached Child Help Foundation. The operation began successfully, and Crespo was discharged on 21st September, 2022.

Krithik

Krithik was diagnosed with PICU and needed urgent HHHFNC support to cure his pneumonia. The family did everything to get their son cured but to no avail. After a few days, as his situation got worse and worse, the doctors advised Lotus Hospital, Hyderabad. The family thought their son would get treated successfully this time, but their world was shattered when they learned that the treatment fee was Rs. 7,00,000/- (Rupees Seven Lakhs Only). With no help from anywhere, the family reached out to Child Help Foundation to save their little boy. The surgery succeeded, and Krithik was discharged from the hospital on 26th September, 2022.

Baby of Maheshwari

In the fifth month of her pregnancy, Mrs. Maheshwari underwent an ultrasound scan, which revealed that her baby had a heart defect. She did not want to give up and went ahead bravely. But in the 7th month, her water broke, and she gave birth to a preterm baby. But immediately after the birth, the baby was shifted to the NICU because of prematurity and heart defect. The doctors at Amrita Institute of Medical Sciences and research center, Kochi, had suggested a Nasal SIMV and continued NICU support for the treatment. The treatment fee was estimated to be Rs. 5,44,000/- (Rupees Five Lakhs Forty-Four Thousand Only), which the family couldn't afford. The family requested Child Help Foundation to save their newborn. The treatment went successfully, and the baby was discharged from the hospital in September, 2022 and now lives a healthy life.

Success Stories

Baby of Mounika

Nine-month-old b/o Mounika had been suffering from Meningitis, with Spinal Micro Abscess, a rare spinal infection where infected material (pus) and germs get collected around the spinal cord. The family took their daughter to Sowmya Children's Hospital, Hyderabad, where the doctors suggested a PICU Stay as part of the treatment. The estimated cost of the treatment was Rs. 2,00,000/- (Rupees Two Lakhs Only). The mother who took care of her baby alone approached Child Help Foundation for help. The surgery went successful, and the baby was discharged on 20th September, 2022, and the mother and daughter live happily now.

Baby of Vasantha

In the seven month of her pregnancy, Mrs. Vasantha went through a C-section delivery and gave birth to a premature baby. The little baby was taken to NICU as she suffered from extreme premature conditions. Subsequently, the situation worsened, and the baby was diagnosed with Necrotizing Enterocolitis and sepsis and shifted to Aster Mims Hospital, Kerala. The treatment cost resulted in Rs. 10,00,000/- (Rupees Ten Lakhs Only). The father, being a daily wage laborer, couldn't afford the fee and requested Child Help Foundation for help, after which the operation was successful. The baby was discharged from the hospital on 12th September, 2022.

Baby of Harshada

Mrs. Harshada gave birth to a small girl through a C-section delivery eight months after her pregnancy. Post-delivery, the baby was shifted to NICU stay, where it was discovered that she suffered from extreme premature conditions and Esophageal Atresia with TOF. The doctors at Neocare Hospital, Nashik, advised continued ventilator support as a part of her treatment which amounted to Rs. Rs. 4,00,000/- (Rupees Four Lakhs Only). The family reached out to our Foundation to save their little girl. The surgery succeeded, and the baby was discharged from the hospital on 7th September, 2022.

Success Stories

Akshaya

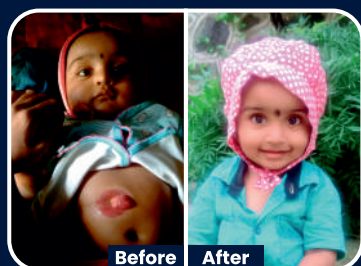

13 year Akshaya was admitted to Bhagwan Mahaveer Jain Hospital, Bangalore, as she was diagnosed with Congenital Kyphoscoliosis. The treatment consisted of two surgeries which the mother couldn't afford. The first surgery was successful due to the kindness of the neighbors, but the second surgery, which amounted to Rs. 2,60,000/- (Rupees Two Lakhs and Sixty Thousand Only), was too much. The mother, having no option left, turned to Child Help Foundation for the safety of her daughter's life. The surgery was performed, and the little girl was discharged on 10th September, 2022. The family lives happily together in their home.

Hitanya

3 months after her birth, Hitanya started facing severe difficulties in breathing. When the suffering could not get better after many hospital visits, she was taken to the Rainbow Hospital in Punjab. Hitanya was diagnosed with Transitional AVCD. The parents were informed that Hitanya needed immediate heart surgery before the hole in the heart expanded. Her family was already in debt due to her mother's three major surgeries. Mr. Subhash Chander earns a meager wage of Rs. 7000/month for a family of 5. He needed help to raise Rs. 4,50,000/- (Rupees Four Lakhs and Fifty Thousand only) for this surgery which seemed impossible to him. They got in touch with Child Help Foundation to save their little girl. The surgery was successful and Hitanya was discharged from the hospital on 8th September, 2022.

Success Stories

Anvi

5 months Anvi, was born with Hirschsprung disease, which meant that the nerve cells in her colon were missing and her large intestine was severely affected. She had to undergo Soave procedure with boley modification costing Rs. 1,50,000 (One Lakh and Fifty Thousand rupees only) and Proximal diversion costing Rs. 1,00,000 (One Lakh rupees only.) Her father Mr. Sambhaji Mali works as a laborer and needed help in raising Rs. 2,50,000 (Two Lakhs and Fifty Thousand rupees only.) Child Help Foundation sought support for the ailing child after which the surgeries were undertaken. Anvi recovered completely and went home on 13th September, 2022.

Baby of Pooja

Pooja's little boy was delivered prematurely at the Care Newborn and Child Hospital, Gurugram. As soon as he was born, he had to be kept on ventilator support as his lungs were not completely developed. NICU Surfactant Therapy costing Rs. 2,50,000 (Two Lakhs and Fifty Thousand rupees only) was proposed for him to survive the defect. Mr. Rahul Singh needed support to afford the treatment of his 9-day-old son. When he could not find any way to arrange funds, he reached out to the Child Help Foundation. With quick aid and support, the treatment was successfully undertaken and the baby was taken home on 14th September, 2022.

The Disappearing Ozone Layer: Why We Should All Be Concerned

In the late 70s, a group of global scientists came together to study Earth's ozone layer. On that day, they concluded that humanity had reached so far in its race to conquer the world that we have jeopardized this essential stratospheric component responsible for saving us. During their research, they noticed a slight hole in the ozone layer just above Antarctica, and to their horror, the spot was continuing to grow larger every day.

The reason behind this calamity, as the scientists studied further, was due to the increasing usage of harmful gasses like the ozone-depleting gas emitted from refrigerators or air conditioners. As the consumption of these devices skyrocketed in the later half of the 20th century, the consequences began to appear in front of us as well. This study devastated the team of experts because they knew the impossibility of releasing this study to the world. They realized that the inventions we did for our comfort might be our greatest woe.

CONSEQUENCES

What does a hole in the ozone layer mean? How can something inaccessible and unclear to us be the reason to stress about? Why is our money going towards something that we don't even understand?

There were some of the questions the scientists worried that they might have to face after releasing their study. But they also knew the consequence of letting this thing continue, which is why, after much scrutiny, they decided

to release the investigation irrespective of the kind of reaction they faced.

What the study showed shocked the world.

The study showed the possible consequences if the problem was avoided. They noted how the ozone layer has been responsible for saving human life since the dawn. The sun, which radiates many harmful rays that can destroy life on earth, failed to do so because of the ozone layer. This stratospheric layer has shielded our planet from all the harmful rays and ultraviolet radiation. If the earth was not protected from these rays, then life as we know it would not have been able to prosper as it is today. If these were directed towards the earth with no protection, every individual would have faced the possibility of skin cancer, cataracts, and many more such illnesses. Overexposure to these UV rays can tamper with crop fields as safe sunlight is their source of life. There would have been disruptions in the food chain in our oceans, i.e., marine life.

These were some consequences humanity would face if our ozone layer wasn't protected. And an ever-increasing hole in this shield would be a possible threat to us and our species.

Due to these alarming consequences, an agreement was established under the Vienna Convention on the Law of Treaties, called the Vienna Convention for the Protection of the Ozone Layer.

Monthly Highlights

SDG3: BABY FEEDING CENTRE

• Visit to Baby Feeding Centre

On 24th September 2022, Project team member Ms. Neha Y. Singh visited the Baby Feeding Centre at Cama hospital & Sir J. J. Hospital, Mumbai, Maharashtra to oversee the construction site. Construction of the Baby Feeding center in Sir J. J. Hospital is completed. The Inauguration of the Centre is planned in Next Month.

• Visit to Baby Feeding Centre

On 26th September 2022, our volunteer Mr. Ninan visited the Baby Feeding Centres at Lakeshore Hospital, Chottanikkara Temple and General Hospital in Kochi, Kerala. As per the feedback received from beneficiaries, baby feeding centres have been useful and helpful for them. The main motive behind these centres is to make available a private space for mothers to feed their babies.

• Inauguration of BFC at New Jalpaiguri Junction (NJP), West Bengal

Inauguration of BFC done at NJP railway station, W. B. (General waiting hall) was on 26th of September, 2022. DRM of Katihar Division Inaugurated the BFC centre. He appreciated this initiative and extended his support to CHF for Construction of similar BFC in other crowded places/station under his jurisdiction. The Inauguration was attended by Mr. S K Choudhury, DRM, Mr. S Chilwarwar, ADRM, Mr. Prashant Kumar, DCM Mr. Asif Ali, Area Manager from Railway department. Child Help Foundation members Mr. Partha Roy, Mrs. Rupa Kabasi and Mr. Soumen Dutta also attended the inauguration.

Monthly Highlights

SDG4: EDUCATION

• Visit to Mini Science Centre

On 12th September, 2022, Ms. Neha Y. Singh (Project Team Member) visited the Mini Science Centre at Pali Ashram School (Palghar), Maharashtra to overview the work of the center. Supervision and Monitoring was done by the team. Dr. Swati Desai (Resource Person, Professor in college) explained the students various tricks and techniques for Mathematics via a PPT in Marathi. The session was quite interactive. The children were also explained how Math can be solved easily in a fun-learning way.

• Education Support to 2 Students – Kavyansh & Nitya

Educational Scholarship Aid has been given to students named Kavyansh and Nitya in the month of September, 2022. The aim behind the Scholarship support provided was that no student should be devoid of Education as it is their basic right. Child Help Foundation supported 2 such kids who are underprivileged for their education. On 2nd September, 2022, our Project team handed over the Scholarship cheques to school authorities for the fees of the above-mentioned students. Parents were very happy and thanked Child Help Foundation for the support rendered to them.

• Capacity Building Workshop in Schools, Dimapur, Nagaland

In the month of September, 2022, a workshop on Capacity Building was organized by Child Help Foundation in two schools by our volunteer Yashika at Dimapur, Nagaland. The various activities conducted during the visit were outdoor activities related to learning words and identification, movie show, games like straw with rubber and jump left-jump right. Meeting with parents and teachers were also conducted.

Monthly Highlights

• School Bag Distribution at Sangtamtilla School Dimapur, Nagaland

Child Help Foundation volunteers distributed school bags to 58 children at Dimapur. The Children were delighted to receive new bags which encouraged them to attend school.

• Awareness session on Mental health and Suicide Prevention

This Program was conducted on 10th September, 2022 in Collaboration with ITDP, for reaching out to the less privileged children, especially the children from the tribal sector at Dahanu and Jawhar, Palghar, Maharashtra.

This program majorly focused on teachers (teaching 10th to 12th grade students) and the hostel superintendents who are in significant positions to identify and intervene for the redressal of their issues. There were workshops, activities, and Role Play planned for the Day. The Topics covered in the talk were as follows:

- Warning Signs of Suicide
- Effects (Short term/Long Term) and Impact of Suicide
- Crisis and Suicide Prevention
- Strategies to Prevent Suicide
- Suicide: What can the school and its authorities do?
- Approaches to Suicide Prevention
- Identification, Assessment, and Reporting Suicide
- Need for Mental Health Services and Intervention

Monthly Highlights

• **Art & Craft activity done with Ashraya (CCI)**

Child Help foundation had arranged Art & Craft activities for children. Ms. Neha Y. Singh (Project Team Member) and Ms. Samrin Sayed (Training and Development Department) were the participating members. Apart from regular studies, other activities also play an important role in the upbringing of the students. With that vision, Ms. Samrin and Ms. Neha conducted craft activities with the students at CCI. Making calendars using chart paper was taught to the students. They followed each step carefully and made beautiful calendars.

• **Bags Distribution, Supaul, Bihar**

Child Help Foundation supports tuition classes every month in Bihar. Our volunteers also distributed School Bags to 50 students in Supaul, Bihar as a part of the Education Support Programme.

SDG6: WATER AND SANITATION (WAS)

• **Handover and Installation of Water Filters**

Under the Clean Water And Sanitation (WAS) project, Child Help Foundation has provided Water Filters to four locations across India; namely Uran School (Navi Mumbai), Jaganathapur Sadhaba Samaja Bidyaniketan, Mahuli Ashram Shala, Aluajharan Ashram Shala and Hemachandra Simanta Sanskrit Vidyalaya, Odisha. Our aim is to provide clean drinking water to the students and to ensure good health. Water filter Inauguration was done at Uran school by our trustee Mr. Rajendra Pathak on 15th September, 2022.

Monthly Highlights

• **Water Filter Installation at Dimapur, Nagaland**

The drinking water facility at Sangtamtilla School Dimapur was inaugurated on 27th September, 2022 by the Chairman of School Management Council. The village council members were also present during the inauguration.

SDG2: ZERO HUNGER

• **Roti Ghar**

Child Help Foundation in collaboration with Roti Ghar provided cooked food to 1,800 children on a daily basis in places like Thane, Mumbai, Delhi, Bangalore, Chilika, and Hyderabad. Our main aim is to meet the hunger needs of the underprivileged children by providing nourishing meals and taking care of their health. We stand by the quote, "No child should be hungry in this world." Child Help Foundation Project Team members visited Roti Ghar locations for monitoring & evaluation purposes to ensure that the food provided is hygienic and good in quantity as well

• **Online session on Nutrition week with Anganwadi**

Ms. Neha Y singh explained the importance of nutrition week through a powerpoint presentation. It was to enhance the knowledge of Anganwadi workers. The session was conducted on 6th September, 2022 via an online platform. The Importance of various vitals in the body like Vitamins, Protein and Iron were explained to the Anganwadi workers on 6th September.

Monthly Highlights

SDG5: GENDER EQUALITY

• POSH Training at Hotel Taj Lands End, Mumbai, Maharashtra

Ms. Meena Lokhande had conducted POSH training at Hotel Taj Lands End. She presented the various acts that come under the Sexual Violence Act and Harrassment at work place. Various laws, rules and regulations were explained to the beneficiaries.

• Gender Equality in Government School

A Social Awareness Session was held in school at Naigaon, Maharashtra by Linsa Elizabeth, CSR Manager, TBZ, in collaboration with TBZ on **29th September, 2022**. Awareness related to body-shaming, height, color, dressing and casteism was created among the students.

• Training by Vitamin Angels

Mr. Gaurav Chauhan provided our members with training on Vitamin and Deworming tablets on 13th September, 2022. 5 members from our organization attended the session. The Importance of Vitamin on Children's Health was explained. Vitamin capsules and tablets were given for further intervention.

Monthly Highlights

SDG8&10: VILLAGE DEVELOPMENT PROJECT

Child Help Foundation had organized skill development training at Gulabigaon, Nashik, Maharashtra for 26 women. During the training for skill development, they learned how to make dairy products such as Paneer, Gulab Jamun, Pedha, Curd, Ghee, Barfi, Chaas, Basundi. Women were happy and they were thankful to our team.

SDG 11, 13 & 17: HUMANITARIAN RELIEF

• Flood Relief Shelter in Uttarakhand

During the flood in Khotila Village, Dharchula, in the district of Pithoragarh, Uttarakhand, a requirement list was given by the shelter team to the Child Help Foundation, which included essential necessities like ration kits. We provided our support and the required items with the help of India Cares and local administration. The shelter team thanked Child Help Foundation.

Monthly Highlights

INDIAN SWACHHTA LEAGUE

The volunteers of the Child Help Foundation had participated in the Indian Swachh Bharat League. With the spirit of creating garbage-free cities to enable all our citizens to live in a clean environment, our team took part in various activities along with other groups of activists. They registered their participation in activities like beach clean-up drives and special cleanliness campaigns at gardens and other heritage structures in the twin cities.

Beach Clean-Up Drive

Activity - 1

• Beach Clean-Up Drive at Velankanni Beach, Mumbai, Maharashtra

On 24th September, 2022, Child Help Foundation's Beach Army carried out a beach clean-up activity at Velankanni Beach, Bhaindar, Mumbai, Maharashtra, in collaboration with crowdfunding platform Filaantro. MBMC members Mr. Anil Rathore, Public Health Inspector, Mr. Ashwin Gohotre, City Coordinator, and Mr. Akshay were also present. The volunteers also undertook an awareness session for the people of nearby communities.

• Wall Painting at Jetwan Buddha Vihar, Kashimira, Mumbai, Maharashtra

To cater to the significance of the Indian Swachhata Campaign, a wall painting activity was carried out by the Volunteers of Child Help Foundation and Filaantro at Jetwan Buddha Vihar, Kashimira, Mira Road, Maharashtra on 26th September, 2022.

Wall Painting

Activity - 2

Street Play

Activity - 3

• Street Play at Bhaindar Railway Station, Maharashtra

A street play was organized by Child Help Foundation outside the Bhaindar Railway Station, Maharashtra on 27th September, 2022. Volunteers elaborated on the need for cleanliness in our surroundings. It inspired people not only to clean their houses but also to keep their surroundings clean.

Monthly Highlights

Paper Bag Activity

Activity - 4

- **Paper Bag Making Activity at Miragao Urdu No 32 School, Mumbai, Maharashtra**

CHF's project team conducted a paper-bag making activity at the MBMC School in Mumbai, Maharashtra. The activity was conducted to create awareness about sustainability and waste reduction as a part of our 'Say No to Plastic' Initiative and a support to the Indian Swachhta League.

- **Awareness Session on Waste Management and Segregation**

On 28th September, 2022, our project team conducted an awareness Session on Waste Management and Segregation in Antariksha Society, Kashimira, Mumbai, Maharashtra. Information about dry waste, wet waste, sanitary waste, and hazardous waste was given to the participants through power point presentation.

Dry Waste and Wet Waste Segregation and Management - Awareness Session

Activity - 5

Swachhta Abhiyan - Model Community

Activity - 6

- **Swacchta Abhiyan-Model Community Activity**

Volunteers of Child Help Foundation and its crowdfunding partner Filaantro conducted an activity- 'Model Community' with Clean-up drive at Jetwan Community, Kashimira, Mumbai, Maharashtra. This drive was conducted on 30th September, 2022 along with the MBMC workers who also cleaned the surrounding area of the location.

Monthly Highlights

Beach Clean-Up Drive

Activity - 7

- **Beach Clean-Up Drive at Jesal Park, Bhaindar(E), Mumbai, Maharashtra**

The volunteers of Child Help Foundation and Filaantro participated enthusiastically in the program and collected plastic waste and garbage strewn across the beach at Jesal Park Chowpatty, Bhaindar East, Mumbai, Maharashtra.

- **Distribution of Paper Bags to Small Shop Vendors**

The team of Child Help Foundation distributed paper bags made from old newspapers to small shop vendors in the area of Jangid Estate, Mira Road, Maharashtra. These bags made by the students of MBMC School promoted awareness about using paper bags instead of single use plastic bags.

Distribution of Paper Bags

Activity - 8

'Say No to Plastic' Drive

Activity - 9

- **'Say No to Plastic' Drive**

Child Help Foundation volunteers collected plastic waste from different societies in Mira Road, Maharashtra to convert it into recycled items for the use of needy children at Ashram Shala. This 'Say No to Plastic' Campaign was conducted from 24th September, 2022.

Monthly Highlights

Other Activities:

• Onam Celebration / Ganesh Festival

Onam and Ganesh Festival were celebrated across all the offices pan India on 8th of September, 2022. Floral Rangolis were designed and sweets and payasam were given.

• T-Shirt Distribution

Wheelchair Fencing Federation of India promotes sports for the disabled people. During the 6th National Wheelchair Fencing Championship, Child Help Foundation distributed 300 T-shirts to the members on 21st September, 2022 in Tamil Nadu, India.

• Installation of Artificial Pond

With the support of our CSR partner, SETU, Child Help Foundation installed Artificial Pond for Ganesh Visarjan in Thane, Maharashtra. It was to decrease the water pollution levels during the festive season.

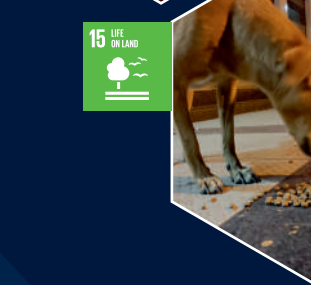

• Meeting with MBMC

Project team visited MBMC to understand the process of Indian Swachhta League on 13th September, 2022. We further discussed and worked upon the goals to organize our own programmes and extend our support for the league.
