## Child Help Foundation Bags Another Award

# About Us *Newsletter*

Child Help Foundation (CHF) is a pan-India non-profit organization, registered under the Bombay Public Trust Act 1950, which started in the year 2010. We aim to accomplish the objectives set by the United Nations Sustainable Development Goals (UN SDGs) for global development. Child Help Foundation's principal purpose is to empower the disadvantaged holistically with some of our initiatives like Emergency Medical Support, Education, Clean Water and Sanitation, Gender Equality, Zero Hunger, Humanitarian Relief, and Village Development.

## Child Help Foundation Awarded the Best NGO for Centre of Excellence

# Newsletter

Child Help Foundation (CHF), a Pan India non-profit Child-centric organisation, has recently bagged an award for the **'Best NGO for Centre of Excellence in Education 2024'** by **Global CSR & ESG Awards on 29th June, 2024 at Hyatt Regence in Gurugram, Haryana.**

Quality Education is one of the primary programmes of CHF. To date, 4,90,914 children have benefited from the mission. Ashram Schools supported by CHF always come with Mini Science Centres, which provide students with models for practical and hands-on experience. CHF has also inaugurated computer laboratories in various schools to introduce digital learning to students.

Speaking on the recent success, Mr. Shaji Varghese, Chief Executive Officer said, "This award is in line with our current upward trajectory, which has only been possible because of the love and support of our donors and corporate sponsors.

They motivate us to continue our work and help more children with education."

In the year 2024 alone, CHF has bagged more awards like 'Most Promising NGO to Work For' by the World HRD Congress Meet and 'Best in Health' at World CSR Day 2024.

The recent achievement has made the volunteers of CHF more enthusiastic to do their work, as they prepare for another successful year. CHF with its many programmes have helped 48,45,101 people.

To help CHF with their mission, you can visit their website or reach out to them through social media.

## Help Save Michel: A Six-Year-Old's Fight Against Thalassemia Needs Your Support

"Four years ago, we learned that our son Michel was suffering from Thalassemia. Our world shattered right away. It breaks our hearts every time we see our son fighting for every single breath in his life."

Shekar (Father)

Michel Siddharth is a six-year-old boy living in Andhra Pradesh. At the age of playing with friends and studying at school, Michel is diagnosed with Thalassemia.

He is currently admitted to Rainbow Children's Hospital (9.0 km from Hyderabad Deccan Railway Station). Michel needs immediate Hematopoietic Stem Cell Transplantation, and the estimated cost for the treatment is Rs.25,00,000/- (Rs. Twenty-Five Lakh Only).

Michel's father is currently unemployed, and his mother is a housewife. They are a family of four and live in a rental apartment. His family has no money for Michel's treatment. His father is currently borrowing some money from his friends, but the amount is not enough to cover the cost of the treatment.

Please donate as much as you can to save Michel. Share this story with your family and friends.

**There are many more children who need urgent treatments, and your small contributions can make a huge difference.** [Please Donate!](#)

**Mithi**

The life of four-year-old, Mithi, came under peril when she was diagnosed with a tumour. However, her father was finding it difficult to arrange the funds as he was a daily wage earner. Seeing no hope, he approached Child Help Foundation. After doing the necessary verifications, Mithi was saved by the kindness of the donors.

**Afnas Hayath**

A studious young boy's dreams were threatened when he was diagnosed with leukaemia. His parents were proud of him, but now they were afraid for his life and needed money as quickly as possible. Thankfully, the donors of the Child Help Foundation were with the parents and saved the child from misfortune.

**Baby of Kalpana**

Kalpana and G.Sravan's dreams were crushed when their baby was born prematurely. Their little one needed help but they had no way of doing it. But during their dark times, donors of Child Help Foundation helped them out of their misery and saved their little one.

**Baby of Pushpavathi**

When Pushpavathi gave birth during the seventh month of her pregnancy, she knew trouble lay ahead. But they didn't know about the miracle they were about to witness, which was only possible because of the donors. During her hopeless times, the donors came in and saved the baby when they least expected it. Today, the baby is safe in her mother's arms and away from harm.

## Newsletter

**Hridya Sunil**

Sunil Kumar, Hridya's father, worked as a painter. So it was incredibly difficult for him to afford surgery for his daughter. But without the surgery, Hridya would have been left dependent for her entire life. Thankfully, that fate was avoided due to the selfless efforts put in by our donors.

**Khadija**

At the mere age of twelve, Khadija had undergone eight surgeries. However, she probably won't require more in the future, as her future was secured due to the relentless passion of our kind-hearted donors. Today, Khadija looks forward to excelling in her studies and soaring high in the future.

**Nibi Kumari**

Nibi's father, Ajay, was speechless after the miracle he just witnessed. He approached Child Help Foundation with a faint glimmer of hope, which was warranted by our donors, who did everything in their power to successfully save the child. Today, Nibi is in the warmth of her dwelling, living a carefree life.

**Baby of Kalva Laxmi**

Today, Kalva Laxmi's little one is healthy, but that wasn't always the case. The baby was born during the seventh month of Kalva Laxmi's pregnancy. The case was picked up by Child Help Foundation and the donors saved the little one from harm, securing the life of the baby and the happiness of the parents.

**Ibrahim**

Little Ibrahim was diagnosed with Bilateral CTEV which created problems in walking. He was advised of Bilateral PMSTR surgery. Ibrahim's father is a labourer, and his mother is a housewife. It was impossible for them to afford the treatment. Child Help Foundation successfully raised funds for their child's treatment, and now he is completely cured.

**Samruddhi**

6-year-old Samruddhi was battling with life and death as she was diagnosed with Thalassemia Major. Her mother is a housewife, and her father is the sole breadwinner of the family. She was admitted to Kokilaben Dhirubhai Ambani Hospital. Doctors suggested regular blood transfusions and stem cell transplantation (BMT). It was impossible for Samruddhi's family to gather such a huge sum of money. They approached Child Help Foundation for Samruddhi's treatment, and with the help of our donors, we have successfully gathered the treatment cost. Now Samruddhi is living a happy and healthy life.

**Ayat Parbin**

Today, Ayat is living a healthy life, but her life was not always like this. She was diagnosed with fatal heart disease and her parents were unable to afford the cost of treatment. Child Help Foundation, along with our donors, helped them and Ayat's surgery was successful.

**Twins of Shalini**

The expression of happiness on Shalini and her husband was priceless when they learned that their twins were out of danger. Their twins were premature babies, which led to many problems for them. Our donors helped them and gave them a new life bright and healthy future.

Before After

**Gurfateh**

Gursewak and Manpreet's world shattered when their 4-year-old Gurfateh was diagnosed with complex heart disease. Today their child is living a normal life thanks to our donors, who gave Gurfateh and his parents a reason to be happy again.

Before After

**Yuvi**

2 ½ months ago, Yuvi was suffering from complicated heart issues that needed immediate treatment. His family can merely meet their ends; it was impossible for them to pay such a hefty amount for his treatment. The donors at Child Help Foundation turned what was impossible into a possible mission. Now Yuvi is living a better and healthier life.

**Baby of  
Jagadeeshwari**

Jagadeeshwari and Balsubramaniam's newborn infant was suffering from a breathing disorder. It needed immediate care, and the cost of treatment was not affordable for the parents. Today their child is breathing without any pain, thanks to our donors who helped in his treatment

**Shahana Fatima**

Shahana wanted to study hard but was unable to do so as she was suffering from Congenital Heart Disease. It was impossible for her parents to cover the expenses of her treatment. They approached us, and our donors helped Fatima with her expenses. Now she is studying freely to pursue her dreams.

**Baby of Swathi**

Ram and Swathi's were heartbroken after learning of their newborn's health condition. Unable to bear the expenses of their child's treatment, they found their way to us. Our donors helped them, and today their child is living a healthy life.

# Men's Mental Health Month: Cries Suppressed by Toxic Masculine Culture

## Newsletter

Mental Health has been a cultural conversation and strides have been made in that field but somehow men have been left out of the conversation. The reason is the patriarchal culture which discourages men from seeking help.

To raise awareness about men's mental health, June has been marked as Men's Mental Health Month. It is an opportunity to shed light on men's mental health issues.

To observe this month, we are going to talk about the reasons for men's mental health decline and what we can do about it.

One of the major reasons for men's mental health issues is traditional expectations of men. Our patriarchal societies push men to be stoic, strong, and independent, discouraging them from expressing vulnerability or seeking help for mental health issues. This pressure to conform to rigid masculine ideals can lead to feelings of isolation and inadequacy, contributing to mental health challenges.

While everyone is pressured to a certain extent, men are the only ones who aren't allowed to seek help. This creates loneliness and a feeling that the world doesn't understand them. This is the reason why men's suicide rate is normally higher than women's, as men are less likely to seek help when needed.

We often hear phrases like 'Don't Cry, Be A Man' and 'Don't Cry Like A Girl'. This creates an expectation that a man should be headstrong even when everything around him is crushing down. This leads to emotional suppression, which has been linked to highly aggressive behaviour.

Speaking of aggressive behaviour, men are more likely to be shamed if their wives earn more than them, which leads to fractures in relationships. Men are also shamed if they love their wives too much, as caregiving and nurturing is a role that is 'supposed' to be played by women rather than men.

Culture also plays a big role in creating the ideal toxic masculine figure. In films, we mostly see a man playing a macho role who is filled to the brim with anger and violence. He also treats women with disdain and is rarely vulnerable. This creates an ideal image of a man in the eyes of the audience, we rarely see men in films be vulnerable.

To solve the issue of men's mental health decline, we need to create a society which doesn't discourage men from seeking help when they need it. We need to allow men to cry and express their feelings and emotions so that they don't feel lonely.

Movies and songs need to change, in that men are allowed to be both vulnerable and strong at the same time. Boys also should support their friends when they go through a tough time, instead of shaming them.

Child Help Foundation greatly encourages discussion around mental health. We have conducted numerous mental health sessions in school, which encourages men to seek help when they need it.

Thank you for taking the time to read this article. Make sure to share it with all your friends and family members.

## School Health Program

In the month of June, four new schools were added to the School Health Program, with this addition, fourteen schools are benefitting from this program with the support of L&T Public Charitable Trust: This includes ten ashram shalas, one Z.P. School, and three government-aided high schools. The project focuses on various physical and mental health activities, including student health screenings, treatment of illnesses, and capacity building for students and teachers through awareness sessions and counselling activities as a continuation of the previous year's activities to measure the impact of the program.

**In the month of June, the following activities were implemented.**

- A total of 580 were screened through 19 health visits by a team filling out their health cards which are personalized health details for each student
- 259 illness cases treated by doctors
- 662 secondary students reached through 12 awareness sessions on different topics of Mental Health
- 409 higher secondary students reached through 08 awareness sessions on different topics of Mental Health
- 1452 students reached through 25 awareness sessions on different topics related to health

## Update of Baby Feeding Centres (BFCs)

**Maharashtra:** During a visit by Child Help Foundation staff to Boisar and Palghar Railway Stations, it was noted that the centres are being used regularly and the station master is co-operative, who is also guiding mothers to the centre. The centres are being cleaned every day. Centres at CAMA Hospital and Urban Health Centre were reported to be well-utilized and maintained, and BFCs at St. George Hospital and Sir J. J Hospital experienced lower footfall as many mothers don't visit St. George Hospital and the key for the centre at Sir J. J Hospital is kept with the nurses. The utilization of the facilities at Kalyan and Kurla Railway Station was reported to be low due to the low visibility of the centres. Usage was limited in Kashimira Police Station as few women with small children visited the station. However, the facility was deemed necessary for potential future use. Pune Railway Station reported good usage despite being located inside the crowded waiting room.

**Kerala:** Centres at General Hospital and Lakeshore Hospital were reported to be well-maintained and utilized effectively. Given Chottanikkara temple's high daily footfall, the usage of the BFC was proportionately high.

**Andhra Pradesh:** Vizag Railway Station's high footfall, particularly mothers with small babies, contributed to the excellent usage of the BFC.

**Karnataka:** BFC at Sir C V Raman Hospital 1 indicated average usage and good maintenance. Sir C.V. Raman General Hospital – 2 and Sir Atalbihari Vajpayee College-1 indicate good usage due to the high patient influx, including mothers.

**Tamil Nadu:** The BFC at The Institute for Child Health & Hospital for Children in Chennai served with satisfactory usage. Institute of Obstetrics and Gynecology in Chennai received effective usage of the BFC by mothers.

**Bihar:** BFC at Katihar Railway Station was not used widely despite being functional

**West Bengal:** BFC at New Jalpaiguri Railway Station was not used widely despite being functional

## Mini Science Centre Visit

Supported by SEFF (Samata Equal Footing Foundation)

Maan Ashram School, Palghar, Maharashtra

On June 12th, Ms. Jyoti (Asst. Manager) visited Maan Ashram School to meet with the principal. During their meeting, she discussed Child Help Foundation's plan to organize a Teachers' Training program for educators from six schools where MSCs have been installed. She emphasized the need for a central location that would be convenient for all participants and proposed Maan School as the ideal venue. The principal granted permission to conduct the training at Maan School. Ms. Jyoti thanked him and requested access to the MSC room. Upon inspection, she noted that the room was spacious but had only one fan, necessitating the arrangement of two additional standing fans for the training.

- Ms. Jyoti then visited Dadade School for observation and maintenance of MSC libraries.
- Additionally, Ms. Jyoti visited the Tarpaulin Industry in Vikramgad to assess the quality of tarpaulins and place an order to address the leakage issues in Vinval and Talwada schools.

## Inauguration of Computer Lab Projects

Supported by National Fertilizers Limited (NFL)  
Barbigha, Bihar

Inauguration of computer lab projects was done on the 22nd of July 2024 at Madhya Vidyalaya Samas and Madhya Vidhyalay Lodhipur, by Dr Poonam Sharma (Independent Director of NFL (National Fertilizers Limited)). The principal, teachers, and students were present for the program. Around 1000 students are benefiting from the Computer Lab.

## Centre for Excellence

### Bhopoli Ashram Shala, Palghar, Maharashtra

On 24th June, Chris Shenoy visited Bhopoli Ashram Shala along with Rupesh Plumber of Borosil Company. The visit to Ashram Shala was for the toilet construction in the Ashram. There was a great need for Boys Toilet in the place. This toilet construction is supported by MGA Lifestyle, Kolkata. Also, a discussion with the principal for education-related activities like school dropouts of 11th and 12th standard students tied up with NIOS supported by Servier India Pvt. Ltd. was discussed on the same day.

## MSC Teachers' Training

Supported by SEFF (Samata Equal Footing Foundation)  
Maan Ashram School, Palghar, Maharashtra

The new MSC project was launched in six schools on June 27th and 28th: Talwada, Maan, Dadhade, Karhe, Kurje, and Vinal Ashram Schools. Two trainers from the Vikram A Sarabhai Science Centre in Ahmedabad, Gujarat were invited to conduct a two-day teacher training programme at Maan School. 12 teachers attended this training. The trainers explained various models related to math and science and conducted several activities. The teachers found the training very beneficial as it provided them with new methods to teach scientific laws, mathematics, and geometry using models, puzzles, and games. They thoroughly enjoyed the training and expressed their gratitude to the trainers and CHF for organising it. At the end of the training, the teachers were awarded participation certificates.

# QUALITY EDUCATION (SDG-4) *Newsletter*

## Computer Training Centre Project

### Amboli Marathi Primary School, Silvassa, Dadra and Nagar Haveli

29 classes were conducted in June, with an attendance of 659 students. The curriculum covered various subjects, including Marathi alphabet typing by using the Google input tool, Marathi pronunciation by using the online dictionary, and math problem solving (sum, sub, div, multiplication) by using the Excel Marathi word game online. By offering a diverse range of subjects and practical learning experiences, the computer training centre equips students with valuable digital skills essential to their personal and professional development. Child Help Foundation's commitment to bridging the digital divide and empowering rural children with technological proficiency is commendable and contributes significantly to their overall education and prospects.

## Digital Skills Project

Supported by LTPCT

Vikramgad, Maharashtra

Since May, the Digital Skills project has been implemented in fifteen schools in the Vikramgad block, including eight Z.P. schools and seven ashram schools. This initiative aims to enhance the digital skills of underprivileged rural students through computer training.

Schools Involved: 8 Z.P. schools and 7 ashram schools.

**Training Labs:** Installed in all fifteen schools in partnership with LTPCT.

**Computer Trainers:** Appointed school trainers follow the education department's recognised syllabus.

**Teacher Training:** On June 6th and 7th, the SYS Foundation conducted a Training of Trainers (TOT) session at Maan Ashram School to enhance the capacities of teachers. The SYS Foundation, hired by LTPCT as the technical partner, conducted the training using various tools such as audio-visual shows, assignments, practical demos, and theoretical lectures.

**Topics Covered** Baseline knowledge test of trainers; new syllabus for the next year; Basic C programming, Python, QBasic, Scratch, MS Word, MS Excel, and HTML Online reporting system through logbook maintenance

## Child Care Institutions:

Child Help Foundation supports seven CCIs every month. Educational support is provided to the children from these institutes. These institutions spend the money on fees, stationery, and education-related expenses.

### The activities done in the Month of June are:

1. Needs Charitable Trust (Bengaluru, Karnataka): Counselling programme & Birthday Celebration
2. Ashraya (Handicapped Welfare Organisation) (Angul, Odisha): Yoga Day & Rasa Celebration
3. Koel Saraswati (Angul, Odisha): Yoga Competition & Health Camp
4. Special School of Joy (Kadma, Jharkhand): Celebrated International Yoga Day & Other Activities
5. Saraswati Anath Shikshan Ashram (Pune, Maharashtra): Celebrated Environment Day & Held Yoga Competition

## “Drug-Free World: Our Commitment.”

### Guest Lecture at Nirmala Memorial Foundation College of Commerce and Science

#### Mumbai, Maharashtra

On June 27, 2024, Nirmala College hosted a guest lecture for its students, focusing on the critical topic of substance abuse. The session, held in the college auditorium, saw active participation from over 80 students. The lecture began with a discussion of its objectives, emphasising the importance and relevance of understanding substance abuse, particularly for the younger generation. The presentation included global statistics that highlighted the severe health complications and deaths caused by prohibited drugs, demonstrating the profound impact on young people worldwide.

A powerful short film was also shown, effectively illustrating how the younger generation is falling prey to drugs and how this issue affects society. To ensure a comprehensive understanding, the lecture incorporated relevant examples and real-life experiences alongside the PowerPoint presentation. The session lasted approximately one and a half hours. Towards the end, many students engaged by asking questions and sharing their experiences, indicating a high level of interest and concern.

Dr. Poonam Kakkad, the college principal, concluded the event by expressing her gratitude to CHF for accepting the invitation and raising awareness on this crucial topic. She felicitated the guest speaker, acknowledging the importance of such educational initiatives in shaping informed and responsible individuals.
